Skilled labor/Apprentice	\$49,649
General labor	\$42,288

The average construction wages for U.S. workers are more than \$30 per hour.

A career in roofing offers hands-on experience, freedom from student loan debt, and strong job security in a field largely unaffected by artificial intelligence.

There is more to the roofing industry than working on a roof. There are opportunities in manufacturing, distribution, sales, consulting, office management and warehouse staff. There is something for everyone!
