By any measure, this year was a challenging one— not only for our association but also the nation and world. NRCA has navigated these challenging times with prudence and flexibility and is well-positioned to continue advocating and working for its members during the coming year.
As chairman of the board, I am pleased to report NRCA has continued to excel by maintaining focus on the important work at hand. By any measure, this year was a challenging one—not only for our association but also the nation and world. NRCA has navigated these challenging times with prudence and flexibility and is well-positioned to continue advocating and working for its members during the coming year.

Despite the spending and staff resources required to develop NRCA ProCertification,® Qualified Trainer Conferences, new training and education packages, and a host of other initiatives, NRCA was able to avoid a deficit for the year amid the roller-coaster ride the economy has encountered.

I’m proud of how our industry and NRCA responded when COVID-19 arrived. NRCA’s Washington, D.C., staff did yeoman’s work to fight for our companies and the industry. Whether it was maintaining our designation as essential businesses, having access to Paycheck Protection Program funding, or navigating Occupational Safety and Health Administration and Centers for Disease Control and Prevention guidelines, NRCA’s team helped each of us through the uncertainty and difficulty COVID-19 brought. We would not be where we are without their tireless efforts.

One of the goals for my term was to focus on accelerating NRCA’s efforts regarding workforce development and our outreach with trade schools and other pipelines for future workers. Every day, our members are affected by worker shortages; even as the country faces historic unemployment, we still need additional labor. I set out to identify partners, paths and policies to help bring the roofing industry to the attention of hundreds of thousands of young people throughout the U.S.

480 NEW MEMBERS
3,425 TOTAL MEMBERSHIP
We partnered with SkillsUSA and have roofing included in its annual skills competition for the first time in history. NRCA joined with the National Center for Construction Education & Research, a nationally recognized producer of education curriculum, to update its resources for the industry and convert NRCA’s digital materials into textbook and classroom-based learning materials. SkillsUSA has 6,300 school chapters throughout the U.S., and NCCER’s materials are in more than 6,000 accredited facilities, as well.

NRCA also produced resources for its members to better inform potential workers about careers in the industry and unveiled a new website (careersinroofing.com) to help members with their recruitment efforts. By working together, I’m confident we can continue to advance and inform the public about the rewards and possibilities of careers in our trade.

As I depart my role as chairman of the board, I believe I have left NRCA in a better place and on solid footing for my successor, Rod Petrick, to continue our important work. There’s a tremendous amount to be done, but I know working together we can continue to move our industry forward. I am grateful for the opportunity to serve and achieve success.

Best Regards,

NICK SABINO,
Chairman of the Board
VISION STATEMENT:

Since 1886, the National Roofing Contractors Association has been the home for generations of entrepreneurial craftsmen and enterprises who shelter and protect America’s families and businesses and each other. Our vision is the recognition of our members as professionals and to unite the industry to that purpose.

NRCA ProCertification®

SYSTEM-SPECIFIC CERTIFICATION COMPONENTS WERE COMPLETED—OR ARE NEARLY COMPLETE—INCLUDING:

- Computer-based knowledge exams available locally to all workers
- Hands-on installer performance exams with scoring rubrics and standardized materials list
- Performance exam scheduling forms and systems
- Candidate experience evaluation forms
- Performance exam auditing systems

Trademark registrations for the NRCA ProCertification® logo, names and other materials with the U.S. Patent and Trademark Administration office were finalized.

ESTABLISHED REMOTE PROCTORING SERVICES THAT ALLOW CERTIFICATION CANDIDATES TO TAKE THEIR COMPUTER-BASED EXAMS ANYWHERE—AT HOME OR IN AN EMPLOYER’S OFFICE.

THE EPDM SYSTEMS CERTIFICATION LAUNCHED IN ENGLISH AND SPANISH.
The Occupational Safety and Health Administration crane regulation requires an employer to assess a crane operator for the knowledge and skills to operate a particular piece of equipment. NRCA’s form makes it easier for a roofing contractor to perform the evaluation and properly document it.

To help contractors address heat illness hazards in a comprehensive manner, NRCA’s new document details hazards related to heat exposure; the symptoms a worker may present when temperature and humidity rise to dangerous levels; and the controls needed to minimize or eliminate the hazards.

The roofing-specific job hazard analysis form helps assess the hazards present on a project and provides a comprehensive job hazard analysis targeted to roofing operations.

The all-terrain vehicle and rooftop equipment safety template is offered in a PowerPoint format and can be customized.

The NRCA Roofing Manual: Metal Panel and SPF Roof Systems—2020

The NRCA Construction Details: CAD Files—2020

The NRCA Waterproofing Manual—2nd Edition
NRCA supported the **CARES Act**, which provided an estimated **$1.49 billion** in funding through the Paycheck Protection Program to help roofing companies navigate the challenges of the COVID-19 pandemic.

NRCA advocated for increased funding for Perkins Career and Technical Education Act State Grants. In December 2019, Congress approved **$1.283 billion** for fiscal year 2020, an increase of **$20 million** compared with the 2019 funding level.

NRCA advocated for increased funding for Perkins Career and Technical Education Act State Grants. In December 2019, Congress approved **$1.283 billion** for fiscal year 2020, an increase of **$20 million** compared with the 2019 funding level.

NRCA worked with coalition allies to get legislation approved to **repeal the health insurance tax**, authorized by the Affordable Care Act in 2010 and implemented in 2014.

**ADVOCACY FOR THE ROOFING INDUSTRY**

**ADVOCACY EVENTS COMBINED RAISED MORE THAN $300,000 IN FUNDING TO BENEFIT ROOFPAC, THE VOICE OF THE ROOFING INDUSTRY IN WASHINGTON, D.C.**

**$20 MILLION**

NRCA’s message of hope video lifted up those working in the roofing industry and reassured homeowners the industry is there for them during these challenging times. On Facebook, this video was viewed more than 6,000 times and had 160 shares.

Professional Roofing’s COVID-19 news page kept people up to date regarding how the roofing industry is taking steps to innovate and provide aid during the COVID-19 crisis.

NRCA created a clearinghouse of information and resources addressing various issues companies may face while managing a business during the COVID-19 crisis.
Education continues to be front and center, and no one does a better job of providing the tools to have a team of knowledgeable installers and office personnel.

TAMMY HALL,
CFS Roofing Services

NRCA fosters a culture of selfless contributions from members and has a strategic intent to advance the prospects of the industry and its people.

SCOTT GIPSON,
FiberTite Roofing Systems

I enjoy the camaraderie with the people in the industry. I can be part of the problem-solving and I get the ability to give back to the industry.

GEORGE PATTERSON,
Bennett & Brosseau Roofing Inc.
